...a great family day out

Come and see all the animals at Windmill Animal Farm

Windmill Animal farm was first opened to the public in 1992, and offers visitors the chance to experience the every day running of an actual working farm while still having the chance to watch, feed, touch and play with the animals.

School parties are welcome to the farm throughout the year and education guided tours are available with information on the animals and the chance to see and learn about the rearing of these animals and their varied lives.

Train Rides to the Lake

The farm is set within many acres of grounds with what used to be a derelict Windmill from which the farm gets its name.

The animals on the farm have been acquired from different parts of the country with a mixture of breeds ranging from the Scottish Highland cattle to the Jacob sheep which originate from the Spanish mainland. Other breeds of animals can be seen on the farm such as cows, goats, pigs, rabbits, shire horses and shetland ponies.

Play, Shop and Dine...

As well as all these beautiful and unusual animals to see, the farm has a marvellous selection of children's play areas outdoor and indoor, suitable for all ages, from toddlers to early teens. Pedal tractors can be ridden around the farm by the children, who are most welcome to step into the 'Children's Pet Area' with the smaller animals.

Visitors to the farm are able to relax and have something to eat and drink in the coffee shop, or outside in the courtyard, while your children play happily and safely.

Other facilities on the farm include large car park, disabled access, baby changing facilities, orbitors, train rides to the lake, and an attractive craft and gift shop, so that you can take a memory of the farm home with you.
